## BASIC SUPPLY LIST

### FRESHMAN YEAR, 2018-2019

This list contains materials that you will use in the upcoming academic year. Faculty members have compiled the list based on projects you will complete in your courses. There is no need to buy everything at once or to buy items that you already own; however, please expect to use all of the materials throughout the year. Faculty members will email you in late summer with specific items that you will need to bring to class on the first day.

In addition to the supplies below, please keep in mind that all students are required to have their own *15" Macbook Pro laptop computer* and *digital camera* prior to the start of classes in September. The digital camera is necessary for a course you will take this year, FD 109: Digital Imaging. Technical specifications for this equipment can be found on-line at [pcad.edu/laptop](http://pcad.edu/laptop).
