## Experience

### **Founded Spec Creative • 9/20/21 - present**

Working primarily as a freelance photographer/videographer with the popular YouTube "StreetSpeed717" in Hershey. Specialized Media Group is the name of my LLC that I filed in August and I have been developing it over the past months to be full blown operation.

### **Lancaster County motors Subaru • detailing • 11/06/19 - 4/1/20**

My time at Subaru was mostly in the detail section of the dealership, as I was on the spot delivery team and was responsible for making sure that all sold vehicles leave the lot as clean as physically possible, while keeping an efficient workflow. High detail and efficiency were very important and required by the sales department.

### **InShane designs • designer/photographer • 5/01/19 - 8/27/19**

I was the in-house photographer and graphic designer for InShane designs over the summer when I was home from college. I helped to acquire high quality imagery to keep the website up to date and in good working order. I was tasked with various digital responsibilities such as working through Photoshop and Adobe Illustrator to aid in the printing process of thousands of stickers, posters, and vinyl wrap.

### **Faulkner BMW of Lancaster • photographer/lot attendant • 10/10/18 - 5/01/19**

Primarily the part-time lot attendant, I washed and organized dozens of cars a day. I would also help the sales department out with getting new images for the dealership website and operated their social media.

### **Best buy • sales associate • 11/01/18 - 4/28/19**

My first sales job taught me a lot about people and what they want. I was one of 4 employees in the digital imaging department at the Best Buy on the Carlisle Pike, but was proficient and knowledgeable in other products and companies such as Apple, and Windows departments.

### **Hershey entertainment & resorts • lead ride operator • 3/01/16 - 8/01/18**

I was in charge of a constantly changing number of around 40 ride operators. Depending on the day, I would be directly in charge of 10-20 employees and making sure that all safety regulations were followed to-a-tee, as the rules were strict so that no guests or employees would get injured.
