Where to find College's COVID-19 information

In March 2020, PCA&D established a Health & Safety team to spearhead COVID-19-related practices on campus and to provide guidance to students, faculty, and staff. After four years of service and engagement, their mission has been accomplished and the team is being disbanded.

For questions related to COVID-19, please refer to the PCA&D website's [student portal](#) and the absence policy in the academic catalog.

PCA&D packaging team is tops in the nation!

Huge congratulations to the PCA&D packaging design team of **Logan Byer '26**, Design Thinking; **Bahir Harris '24**, Graphic Design; **Kendall Harris-Burton '24**, Graphic Design; and **Cam Maier '25**, Animation & Game Art; who placed first in the nation at last week's Paperboard Packaging Council's industry conference in Atlanta! They were honored for the sustainable paperboard packaging they designed for potatoes, and topped the two other finalist teams, from California Polytechnic University and Rochester

Institute of Technology. Team members were part of Prof. **Tom Newmaster's** packaging design class last spring, and this challenge was a class project.

The Paperboard Packaging Alliance challenge provides "real-world design experience that prepares (students) for future opportunities in our industry," according to the professional organization.

Stay tuned for more news about this awesome achievement!

The group visited PCA&D during the spring semester, hosting an artist talk about the project and accompanying workshops involving movement and 3-D scanning.
