Student health insurance info for 2025-26

The College is still partnered with [QM Services \(QMS\)](#) for a lower-cost student health insurance plan (SHIP). The coverage includes a prescription plan, support for laboratory tests and X-rays, and in-patient and hospitalization coverage. Keep an eye on your student email for QMS information over the next few weeks.

Students and families with qualifying health insurance will be able to opt out of this coverage. The opt-out process initially includes a charge to your College bill that will be removed once you have completed the waiver process. QMS will handle all records through their confidential portal. If your coverage is initially declined through QMS, please reach out to Student Life at studentlife@pcad.edu so they may work with QMS partners to advocate for your health plan.

To opt out, log onto the [QMS website](#) to submit proof of insurance. If you're having issues with the website portal, connect with PCA&D's independent student health insurance administrators at university@qmservicesinc.com. The College's Student Life team will be emailing more summer communications that offer an overview of health and wellness resources available to you during the academic year. If you have any other questions, please reach out to studentlife@pcad.edu.

Registrar's message for returning students

A message from Registrar **Hannah Warner** for returning students:

The Self Service course registration portal is now closed. While you can't adjust your schedule online, you should still be able to see [live information about which classes are running in the fall and if seats are still available in each one](#) ("register" tab, click "traditional courses", and then "section search"). From now until the end of the add/drop period next semester, schedule adjustments will be completed through the Registrar's Office. In the event you would like to change your schedule, you may [request a schedule change here](#). By submitting requests through this link, the Registrar's Office can easily track everyone's requests and make notes for each entry we receive. If you need to, you may submit more than one. All changes are made on a first-come first-served basis. We will do our best to accommodate everyone's requests, based on your degree plans and course availability.

Additionally, there are several classes that have seats available that meet various degree requirements (humanities, general studio electives). There are also sections of the fall foundation level courses (art history, communications, and studio) if there is a course you need to retake next year. If you can't remember or are unsure if you need to retake a fall semester foundation course, you can review your grades in Self Service ("grades" tab, click "unofficial transcript") to see if there are any "F" grades.
