PROFILE

I am pursuing my Bachelor's Degree in Animation and have obtained my Associate's Degree in Animation. I have 4 years of customer service experience at Cinemark Movie Theatres. I have excellent artistic abilities not only in character concept design but animating as well. I animated in 2D on my sophomore final "Employees Only" and 3D modeled props and designed spaces in Maya. Currently, I am one of three seniors at my college specializing in 3D animation. My portfolio shows my strong visual aesthetic and commitment to detail. I am passionate and eager to bring my creative storytelling and technical skills to your creative teams. I believe my willingness to learn, and enthusiasm makes me highly motivated to contribute to your upcoming projects. I have excellent verbal and written communication skills. I am an adaptive person, able to multitask, work independently and I am great at collaborating with teams to get projects done.
