Be a part of RegenAll's
Youth Climate Art Exhibition!

In 2026, RegenAll's Youth Climate Art Exhibition will be a pre-event component of **RegenAll's Annual Climate Summit**. Students from around the county will have the opportunity to express their vision of a thriving, resilient, and sustainable "**green future**" to promote creative and hopeful thinking for the next generation. We hope that their work will inspire decision-makers, lawmakers, and community members to see a better future for our shared environment.

The exhibition will be held **November 8 - 15 at Pennsylvania College of Art & Design's Welcome Center (241 N. Prince Street, Lancaster, PA)** with an opening reception on **Friday, November 13, 2026 from 5 - 7:30 pm.**

A slideshow of the artwork will be shown at RegenAll's Climate Summit at **Hoffer Farm** (547 N Penryn Rd, Manheim, PA 17545) on **Saturday, November 14, 2026.**

PROMPT: What does your idea of a green future look like?
